Plans and Working Drawings

CONTRACTOR SUBMITTAL OF SHOP PLANS

This construction advisory serves as a reminder that upon completion of the work, the contractor shall furnish the department one complete set of shop plans on polyester film, per Section 104.02 Plans and Working Drawings of the *2003 Standard Specifications for Construction*. For fabricated structural elements (including concrete beams and structural steel beams), the delivery engineer shall forward these plans to the Bridge Design Unit to incorporate into the as constructed plans.

CONTRACTOR SUBMITTAL OF COFFERDAM WORKING DRAWINGS

The Contractor shall also furnish the department working drawings and design calculations at cofferdam locations, per Section 104.02 Plans and Working Drawings of the *2003 Standard Specifications for Construction*. The delivery engineer shall forward the plans to the Bridge Design Unit for their review. The Bridge Design Unit shall review and forward the drawings to the Geotechnical Services Unit for their review.
